Educational Background:

High School Diploma - Dulaney High School Baltimore County Maryland
College - Pennsylvania State University - Ornamental Nursery Management

Personal Background:

Married father of two and life time resident of the Baltimore area.
Hobbies: Snow skiing, SCUBA, swimming, home improvement and construction

I am very involved in our family businesses which operate in many areas of the aquatic arena from construction, service, retail sales, and management of aquatic facilities. I have always tried to become involved with the industry and its allied associations to keep myself current on its trends. Through my different affiliations I have always tried to set the pace rather than follow along. With the addition of child care to our business I am very aware of the needs in keeping our youth safe and educated to today's technologies and social graces. It is my life's goal to leave my children a better place and their children.
